for Complete Health :*
Chiropractic +
Nutrition + Neurology

The Mississippi Chiropractic Association

is pleased to present

Dan Murphy, D.C., D.A.B.C.O.

Dan Murphy graduated magna cum laude from Western States Chiropractic College in 1978 and has more than 28 years of practice experience. He received his Diplomate in Chiropractic Orthopedics in 1986.

Currently Vice President of the International Chiropractors Association, Dr. Murphy has served, since 1982, as part-time undergraduate faculty at Life Chiropractic College West, where he is currently teaching classes to seniors in the Management of Spinal Disorders. He is on the post-graduate faculty of several other chiropractic colleges and has taught more than 1,200 post-graduate continuing education seminars throughout the world.

In addition to his lectures, Dr. Murphy is also a contributing author to the books Motor Vehicle Collision Injuries (Aspen, 1996), Pediatric Chiropractic, (Williams & Wilkins, 1998), and Motor Vehicle Collision Injuries, 2nd edition (Jones & Bartlett, 2005). He is the author of a quarterly column in the American Journal of Clinical Chiropractic, and he also reviews articles regarding alternative health issues, which can be accessed through his web site at www.danmurphydc.com.

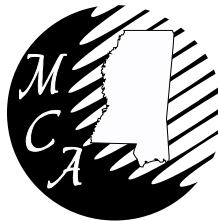

Today's Formula for Complete Health: Chiropractic + Nutrition + Neurology

Voted Educator of the Year numerous times, Dr. Dan Murphy always gets rave reviews! And this presentation will be no different. This highly acclaimed and energetic seminar inspires all those who attend. Dr. Murphy will provide you with unparalleled expertise in the understanding, assessment and treatment of conditions relating to the relationship of essential fatty acids, neurology and nutrition in relationship to cellular function. He will simplify biochemical pathways and demystify inflammatory processes, including prostaglandins, leukotrienes, and the innate immune system, as they relate to pain, inflammation and illness.

Therapeutic solutions are covered, such as nutrients and formulas to resolve problems including omega-3 fatty acids, antioxidants, and high powered nutrients for pain/inflammation, brain/nerve function, cardiovascular function, and other organ support.

Dr. Murphy will bring you up to date on all the latest research on toxins and how they affect health and accelerate free radical production, Vitamin D as it relates to child autism, mortality, multiple sclerosis and infection, the hidden negative effects of Statin drugs, fibromyalgia, pain statistics and nutritional management, causes of obesity and 16 rules for management and much, much more.

*Use Dr. Murphy's special knowledge and techniques
to make your practice even more dynamic!*

MCA would like to thank Mary Obersteadt & Nutri-West South for co-sponsorship of this program.
